Digital innovation you can rely on.

## OVER A DECADE OF DIGITAL INGENUITY

UTG Digital Media is an International Digital Signage Award winner delivering indoor and outdoor LCD & LED digital solutions since 2004. As a leading brand in Canada, our cutting-edge is derived from the fact that UTG proudly designs, develops, and distributes 100% of our quality products. We are committed to providing exceptional products and services to all businesses, big or small. Based in Ottawa, Ontario, UTG Digital Media delivers comprehensive, effective, and exclusive interactive digital solutions to businesses worldwide.

## Wall / Ceiling Mounted

Strategically designed, UTG's full-colour LCD displays are state-of-the-art multi-purpose plug-and-play digital solutions that deliver effective advertising campaigns in virtually any public space. Promote menu items, sales, and messaging in real time effortlessly while simultaneously transforming a typically static area into a rich, interactive experience for customers.

UTG's all-in-one digital displays provide a more attractive, sleek, competitive edge because there are no TVs, laptops, media players, or set up boxes required! Reach a larger customer base and enhance high-traffic areas with energy efficient live screen programming, news feeds, and promotions using any format (text, image, flash animation, video, and more).
